## Who We Are

The Kisaq Environmental Division focuses on a full range of environmental services from permitting and compliance to planning for public and private projects nationwide. Focused on environmental compliance and restoration support, project operations and management, the Kisaq Environmental Division works on an integrated basis with our clients to ensure environmental issues are addressed in a cost-effective and timely manner.

Kisaq is certified as a small, disadvantaged business under the Small Business Administration's 8(a) program, and is a 100 percent minority-owned enterprise.

## What We Do

Environmental Restoration Services  
Environmental Audits and Compliance Support  
NEPA Studies and Permitting Support  
Project Integration

- Kisaq provides a full range of environmental services for clients who face suspected or confirmed site contamination issues. Our team of environmental experts can assess and characterize soil and groundwater conditions at impacted sites, and develop cost-effective solutions for environmental cleanup, restoration, and closure.
- Kisaq provides environmental audits and compliance support to assist facilities with management of hazardous materials, hazardous waste handling, underground fuel storage tanks, drinking water, wastewater, pesticide handling, air emissions, cultural resource protection, and other programs subject to regulatory compliance and reporting requirements.
- Kisaq can perform environmental studies to support feasibility and impact assessments for proposed development and construction projects, and assist clients in meeting NEPA permitting and environmental protection requirements.

## Team Experience

- Air Permitting and Operational Compliance
- Drinking Water System Compliance
- Wastewater Permit Compliance
- Wetlands Permitting and Compliance
- Environmental Quality, Liabilities and Installation
- Solid and Hazardous Waste Management
